

ELDOST

WHITEPAPER | DECEMBER | 2024

About Us

The Weldost project is a subsidiary of the software development company Inviso Consultancy Ltd., which is active both offline and online. We connect the two in an innovative way. Offline, we focus on travel, the real estate market, hospitality, agriculture and the development of our own products. Online WMPs, application, blockchain, game. The most important driving force of the project is the Weldost Multifunctional Passes, or WMPs in short. Using the blockchain, we have developed the world's first digital card that combines travel, can be used for events and programs, and generates passive income at the same time. With us, for the first time in the world, your trip pays off thanks to WMP's staking option. They also generate extra income at the end of the staking run-out period. These digital cards form several different collections that are valid for different travel destinations and countries. WMPs have a unique image, continuous use and stable value.

Weldost Team Members

We are an international team guided by common thinking, open mindedness and goals.
Every team member has great skills on various levels with strong work ethics and commitment.

- Weldost crypto exchange

Online activities

We are active in five different areas online.

WMP

The Weldost Multifunctional Pass is a unique digital card. It can be used for several things.

STAKING

Stake WMPs on our platform for passive income. Trips offered by WMPs pay off and generate extra income.

CRYPTO ASSET

The WMT token is the crypto currency of our project. It works with unique properties and mechanism.

APP

Making an app. With which everyone can easily choose the right travel destination and buy the corresponding WMP.

GAME

Creating our own game on the blockchain in the future. Built on a functioning and strong economy.

Weldost Multifunctional Pass

Our project's self-developed digital card and pass that runs on the blockchain. Each WMP has a unique look and unique features. Among their features, it stands out for the first time in the world that it simply ensures the booking of accommodation via the blockchain and at the same time earn a passive income.

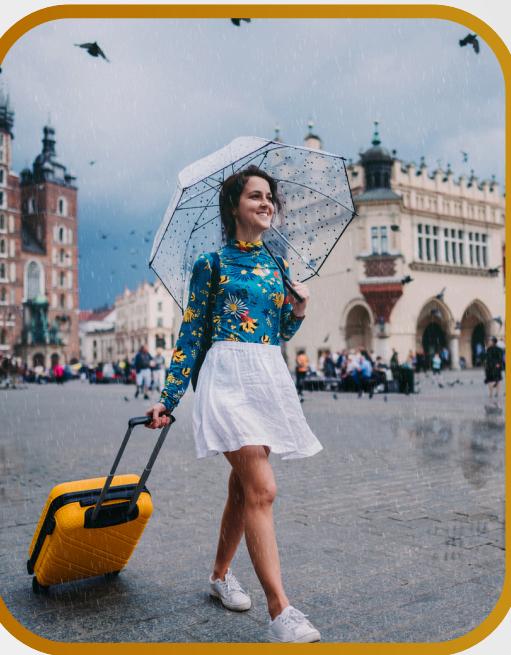

Rewards are generated by staking WMPs. During the staking time, the price of WMP is fully covered and generates extra profit. Our WMPs have many variant of diverse collection and each collection consist of five WMPs. You can choose a duration of stay and number of people participating in travel.

WMPs can be purchased with USDT, a stable cryptocurrency coin. In the future, we will work on the development of our own stable cryptocurrency, so we will implement WMP purchase with WMP stable cryptocurrency.

All WMPs can be transferred to or sold between individuals. It is possible to transfer part of the trip to another person. The reservation is made based on the address of the WMP blockchain and the name of the booker. Thus, all you have to do is place your name on the place of the traveling person. Each WMP is intended for several people, but we only need the name of the WMP owner or to whom we offered it. The trip can be used at any time, of course, if our reservation is available for that period. We are sure that you will find other free times that suit everyone. If you do not travel, it has no effect on the staking option. As long as you are only looking for passive income, it is perfectly fine if you do not want to use WMPs for travel. Everyone can use WMPs as they like.

From time to time, there will be limited series WMPs that do not contain a collection, only 1 item of them is deployed. These special ones last more days than the collection of WMPs. Also include several special programs and events.

In addition, the project's tour guide holds programs for us every day, includes special yoga and meditation programs that allow you to completely turn off your mind and surrender to peace.

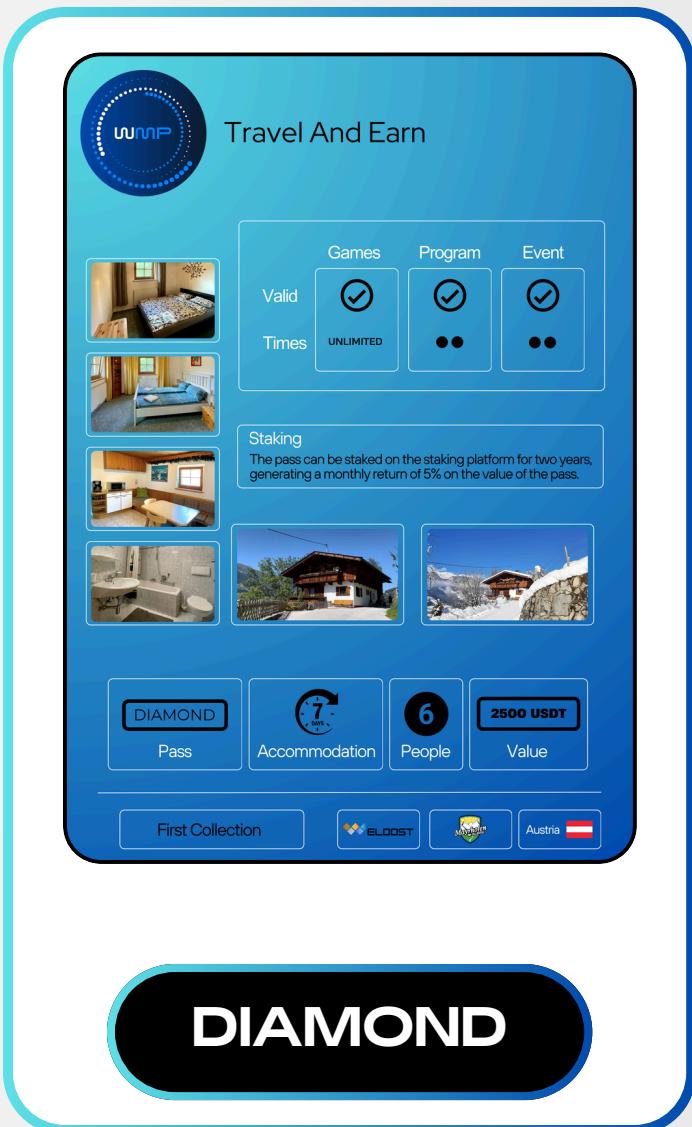

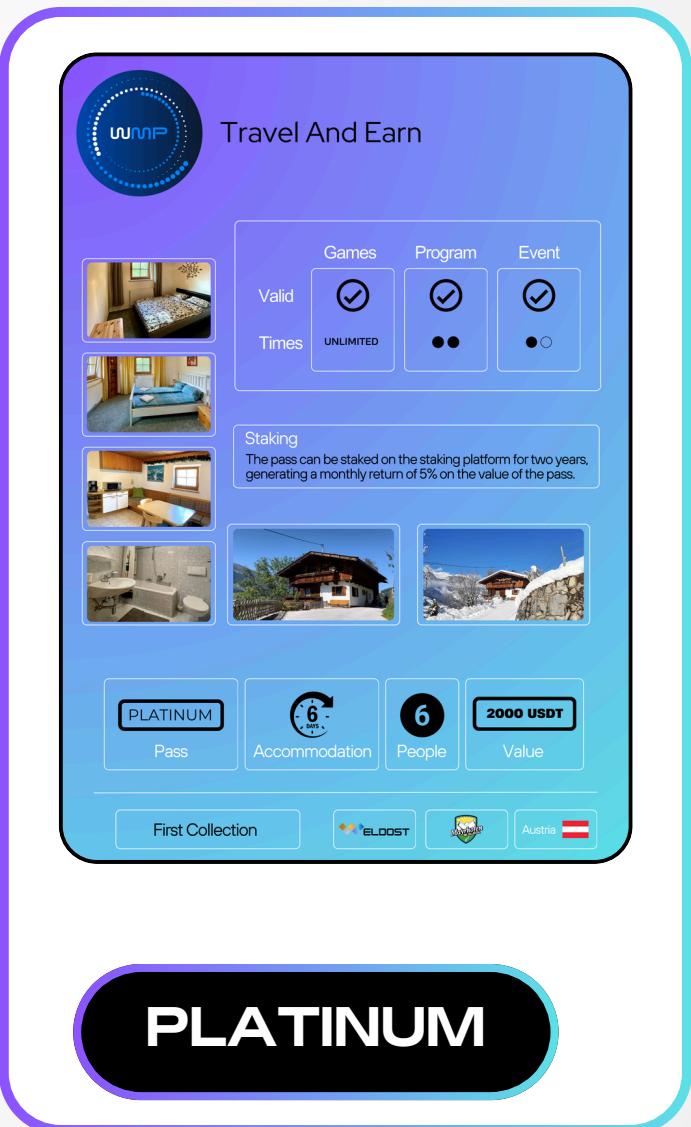

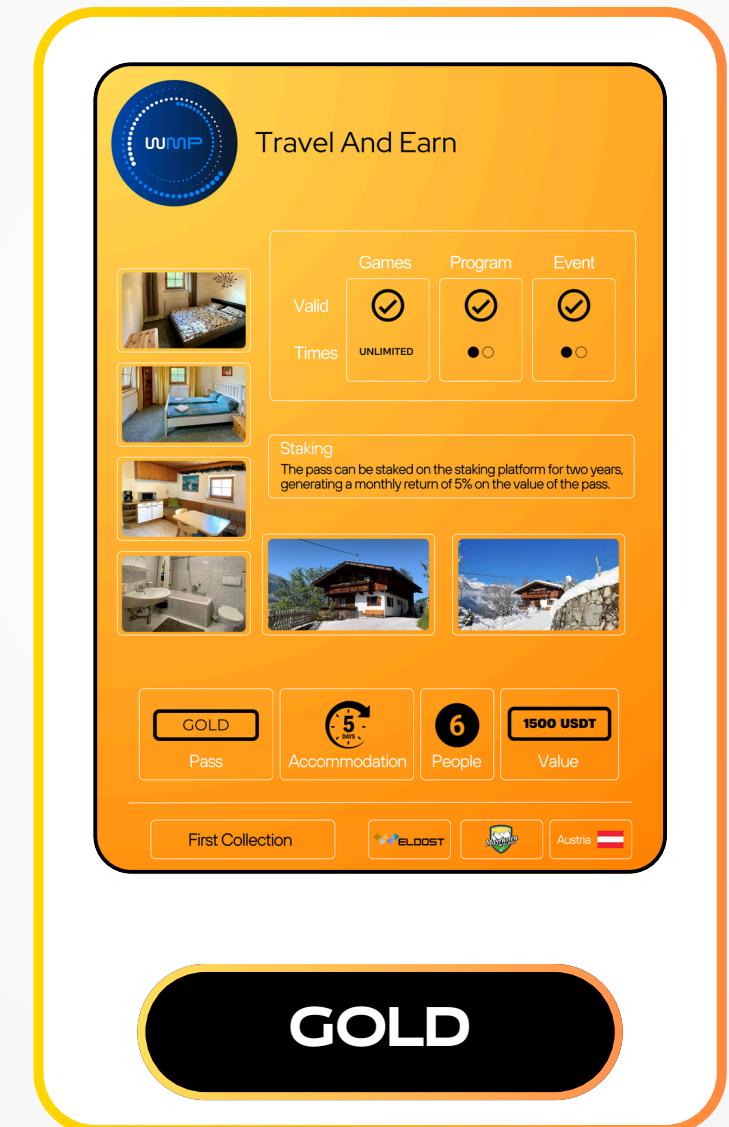

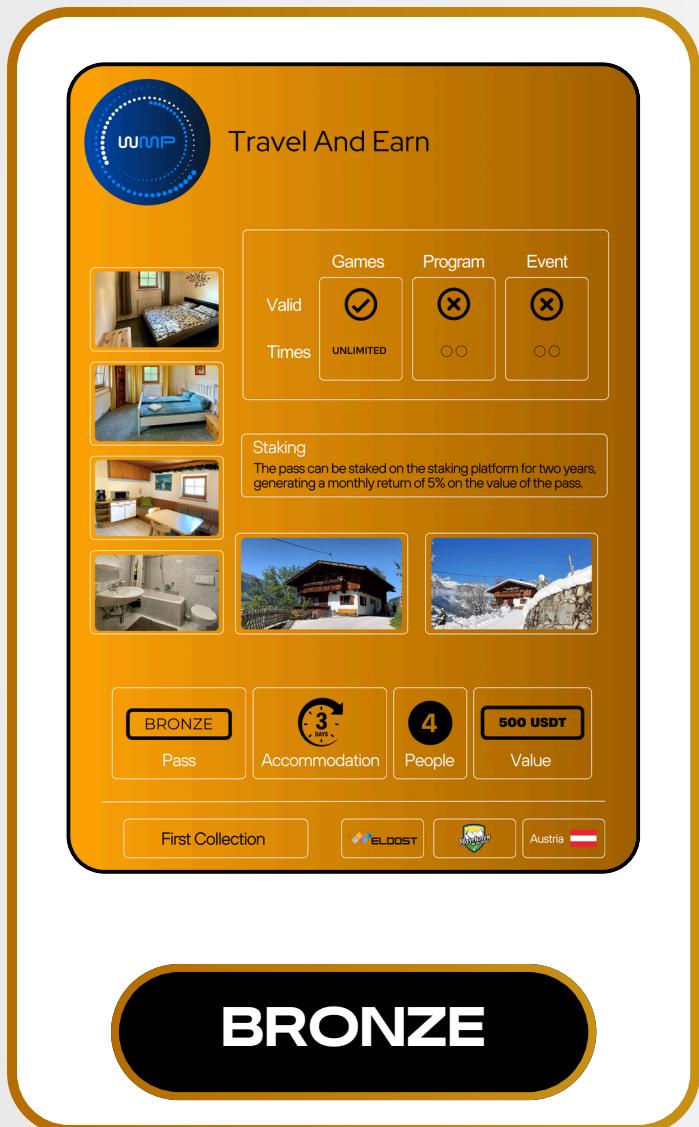

In case you want to travel for 10 days, 2 weeks or more, it is possible by combining several WMPs in the collection. For example, two WMP s of 5 days are valid for 10 days and so on.

Different WMPs contain extra usage. There are three such things. Games, programs, events. Those who are suitable for the games can win various prizes, which we launch from time to time. Passes with programs entitle our guests to one or more programs, such as hiking, skiing, diving and others. Marked with events, it invites our guests to a pleasant dinner or lunch. Event and program passes are valid for one or more occasions.

First WMP collection

The location of the first collection is in Mayrhofen, Austria. Equipped accommodation with a nice view of the mountains.

PASS TYPE	DAY	PEOPLE	PIECES	PRICE
	3	4	125	500 USDT
	4	5	100	1000 USDT
	5	6	75	1500 USDT
	6	6	50	2000 USDT
	7	6	25	2500 USDT

Staking

The staking option is one of the most important features of our project. Thanks to this, everyone who buys WMP gets a full price return and generates extra profit. Each WMP can be staked for two years. What's great is that 5% of the total amount of each purchased WMP is credited monthly. In this way, the received profit is available every month. We are introducing this great opportunity so that the next WMP you purchased will be covered by your profit. Every WMP purchased from profit carries its extra profit with it. Don't forget that thanks to this option your next vacation is completely free!

From an investment point of view, staking WMPs is also great opportunity, because we can increase our income if we hold as many WMPs as possible.

PASS TYPE	PERIOD	MONTHLY	TOTAL
	2 YEARS	25 USDT	600 USDT
	2 YEARS	50 USDT	1200 USDT
	2 YEARS	75 USDT	1800 USDT
	2 YEARS	100 USDT	2400 USDT
	2 YEARS	125 USDT	3000 USDT

Crypto Asset

The Weldost token connects offline and online activities of the Weldost project. It is the first cryptocurrency based on an economic model in which 10% of the income from various offline and online activities is added to increase its value. The more successful the project, the more valuable it will be. Our token is currently running on the Ethereum chain. The token is currently not available for purchase. Because before we publish it, we want to ensure a decisive liquidity for it.

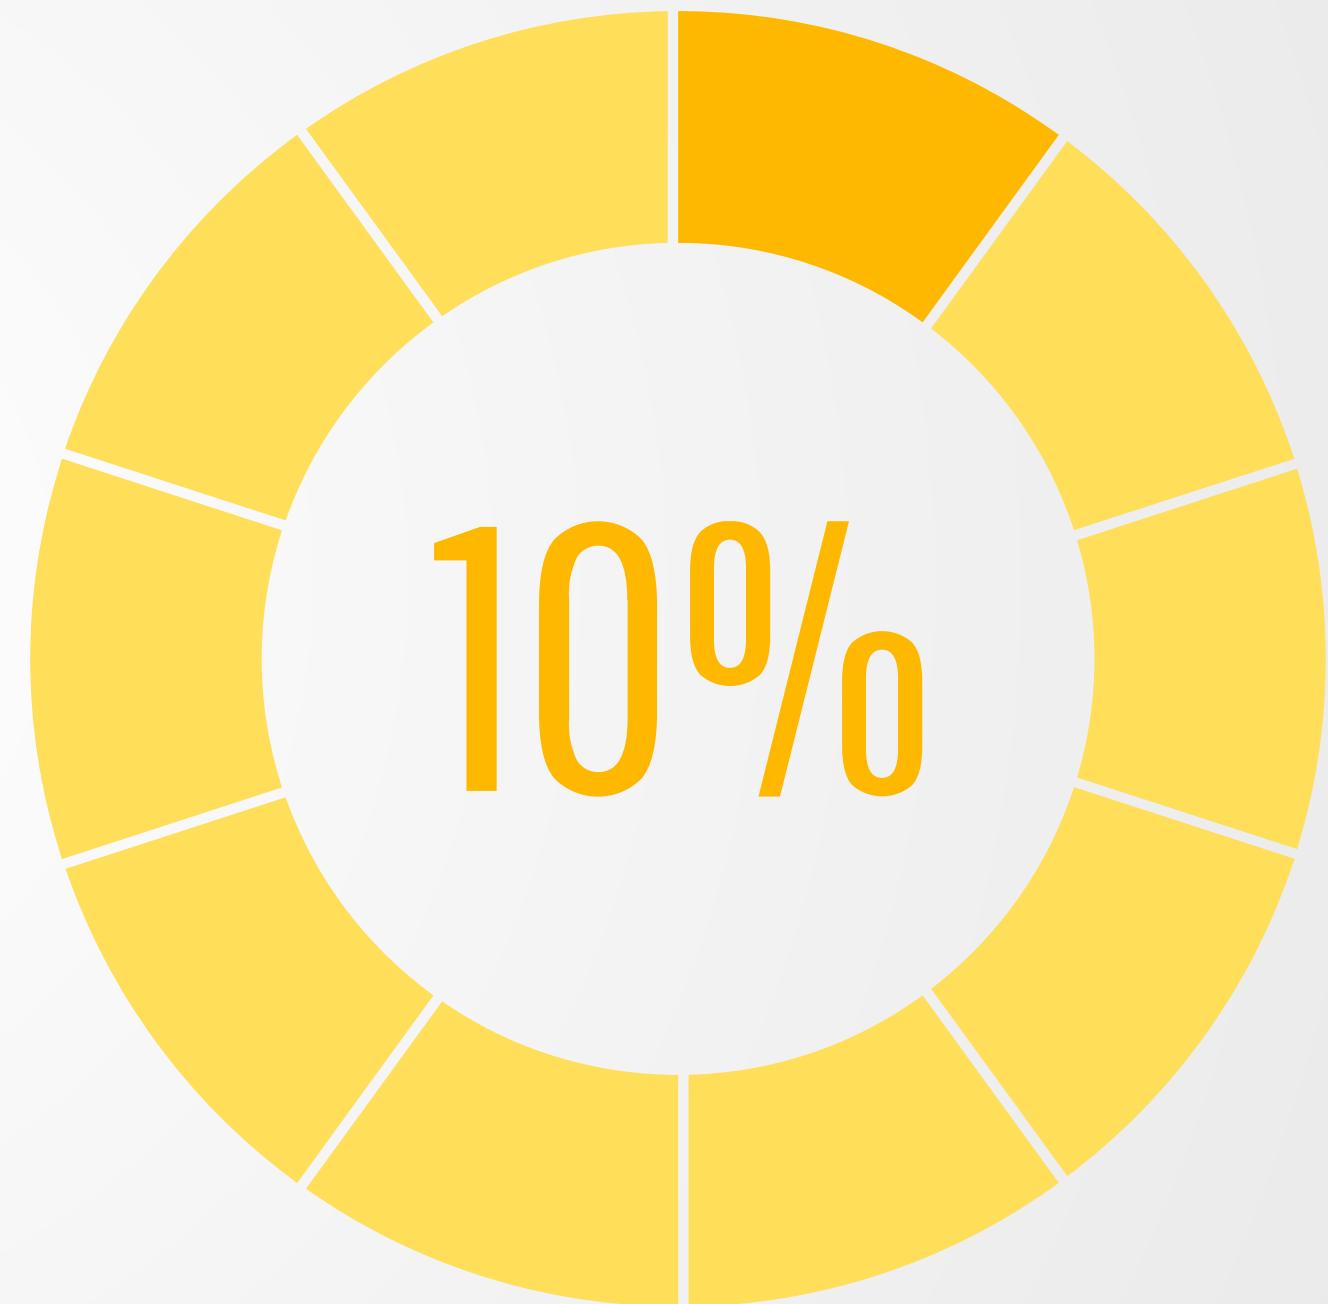

Name: Weldost / WMT
Weldost Multifunctional Token
Total Supply: 1.000.000.000
Network: Ethereum Chain
Contract Address:
0x898C66702D4B60C0F7B83bBf6E1De900e8CbD0A0

Economy

Weldost token the first crypto asset of which value depends not only on investors, but also on the success of the project.

The more people use Weldost Multifunctional Passes, the more they are sold, the more valuable the Weldost token becomes. Owing to the fact that 10% of sales of WMP will be added to the Weldost token and over time we will also add percentages of our other offline ventures.

App

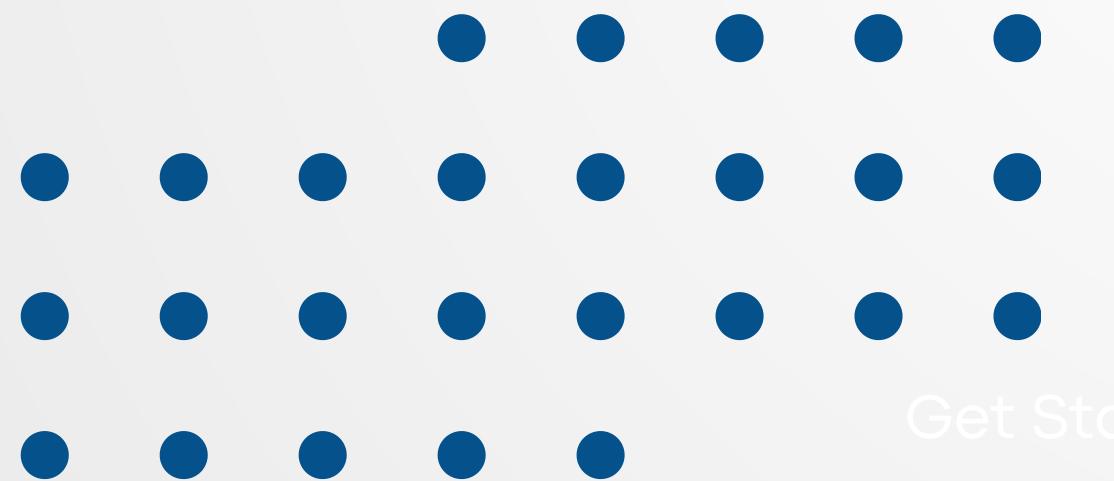

We are developing an application in the near future. Through this application, it will be possible to easily and transparently buy and stake WMPs. In addition, Weldost tokens can be purchased and stored.

Relationship
Building

Game

We will create a game that divides offline activities with online ones. We want to create the first blockchain-based play and earn game with a real economy behind it. Consequently it can become stabil and sustainable.

Get Started

Offline activities

We currently provide three areas. The travel is the program and the event. Our goal is five!

TRAVEL

We provide various equipped accommodations for everyone.

STORE

Creation of various physical stores under the Weldost brand name.

PROGRAM

They offer different programs for our different activities.

PRODUCT

Development of various own offline and online products.

EVENT

We offer different events for our different activities.

Travel

We provide accommodation during the trips. These can be booked with WMP passes. Our goal is to reach as many places as possible so that everyone has the opportunity to choose between as many new locations as possible.

Currently available countries

Program

We provide different programs for everyone, this can be one or more depending on which WMP pass we own. These are joint programs that depend on the facilities of the location. There are several options to choose from. Which is done based on a discussion with the traveling person.

It is important for us that every program is memorable for everyone, which is why we classify it as a separate activity.

We will also organize programs for other activities in the future.

Event

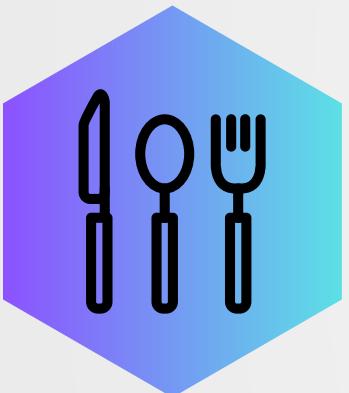

We provide an event for everyone, it can be one or two depending on which WMP pass is purchased. This includes one or two dinners. Food and drinks will be served.

For us, it is important that every experience is memorable for everyone, which is why we classify it as a separate activity.

We will also organize events for our other activities in the future.

Store

We want to open different stores, our current ideas are catering, which would include mobile catering units. In addition, we are also thinking about our own clothing brand store. In addition, other types of shops are also on the horizon. The first ones would be built in the Philippines.

Hospitality

Various foods and drinks from around the world will be available at our place.

Clothing Brand

Different clothes with the Weldost name.

Product

Creating our own products in the future. We have a few ideas. Offline own drink and food in addition to clothing brand. Online own crypto exchange. And connecting them offline and online as well.

Offline

Online

Affiliate

Registration

Register to access the Affiliate program.

Reward

Each new member who registers and buys a WMP pass with the link of the registered user. The owner of the registration link will receive 10% of that amount.

Quantity

Get as many new customers as possible and maximize your profits.

Partnership Invitation

Partnership Invitation

We welcome all our new partners to the beautiful Austrian resort, Mayrhofen. In this town many various programs await our partners. Choose between two accommodations to stay and relax. In the mean time you can meet up with us and discuss further joint ventures.

First location

Second location

Austria

At Weldost, we are constantly looking for partnerships to help and promote each other. If we reach a mutual agreement with a new partner, we reward them with a partnership invitation. This is an invitation for three days and a maximum of six people. In addition, those invited can choose from two locations. These locations are located in Mayrhofen, Austria. This place offers great relaxation. In addition, a personal meeting with members of the Weldost project, where everything can be discussed personally. We believe that a good relationship between the parties brings everyone forward.
